HILL'S CHARLOTTE

Directory of Householders, Occupants of Office Buildings and other Business Places, Including a Complete Street and Avenue Guide

1960

Including Hoskins and Thomasboro

Copyright, 1960, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named treets in alphabetical order, the intersecting streets being shown. The number of each building on the treet is given in numerical order, and opposite the number is placed the name of the occupants or housewner or tenant. In the business blocks containing offices the occupants are shown by room numbers where racticable, in apartment homes the number denotes the number of the apartment. In all streets both sides f the street are included in one list. The profession or business of individuals or firms is given only at their espective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the anvass that the house is owned by some member of the family, but as the publisher cannot and does not uarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibily for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

Postal Zones are indicated on streets served by the Charlotte Post Office. Postal Zone numbers are inorporated in the body of the street description.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the esignation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for e guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a ouble postal card was mailed and the telephone used when possible.)
